OBJECTIVE

I am an enthusiastic Web Developer with 4+ years of experience in HTML, CSS, JavaScript, PHP, and React JS. I've successfully developed websites for a multinational company and various small businesses. Known for my attention to detail and creative problem-solving, I excel in managing multiple projects while maintaining excellent communication and customer satisfaction.

SKILLS

Programming Languages:- HTML5, CSS-(SCSS), JavaScript, jQuery, React, Tailwind CSS.
Databases:- MySQL.
Technical Skills:- UX/UI Design, Photoshop, Git/GitHub, Responsive Design

PROFESSIONAL EXPERIENCE

Powerweave Software Services Pvt. Ltd   **Oct 2021 - Present**
Web Developer
As a Web Developer at Powerweave Software Services Pvt. Ltd, I developed and maintained web applications using HTML, CSS, JavaScript, and ReactJS. I delivered high-quality products on time while collaborating with back-end developers to optimize code and resolve customer queries. I contributed to website design, ensured projects met quality standards, and identified areas for system improvement. Additionally, I provided technical support during system integration and worked closely with various teams for successful project delivery.

Digital Solution Media   **Feb 2020 - Oct 2021**
UI Developer
Worked As a UI Developer at Digital Solution Media, I spent 10 months creating and maintaining user interfaces for web applications. My responsibilities included developing user-facing features, building reusable code, and optimizing components for performance. I also troubleshot interface issues, collaborated with team members, adhered to coding standards, and maintained a clean and organized codebase.

PROJECTS

Denkali (https://www.denkali.com/)

Designing a home décor e-commerce website with various sections like Home, Listing, Details, Basket, Wish List, and Cart allows for a diverse and engaging user experience. Using React, HTML, CSS, and JavaScript offers great flexibility in creating dynamic and responsive web pages.

Sprightly (https://sprightlyfood.ewizsaas.com/)

It's great to hear about Sprightlyfood, an e-commerce website focusing on healthy food! Utilizing technologies like React, HTML, CSS, and JavaScript offers a versatile platform to create a compelling and functional website.

Snowkap (https://snowkap.com/)

Snowkap being a B2B business development website sounds intriguing! Leveraging technologies like PHP, HTML, CSS, jQuery, and Bootstrap offers a robust foundation for creating a professional and functional platform.

Sureviz (https://www.surevizsafety.com/)

Sureviz being a B2B retailer website sounds promising! Utilizing HTML, CSS, jQuery, and Bootstrap provides a strong foundation for creating an effective and visually appealing online platform.

TerryTown (https://www.terrytown.com/)

TerryTown, as a B2B retailer specializing in beach towels, bags, sports and fitness gear, robes, spa wear, wearables, blankets, throws, travel items, and kids' products, is well-positioned to create an engaging online shopping experience. Utilizing HTML, CSS, jQuery, and Bootstrap ensures a strong, responsive design that enhances usability.

E Promotional Products (https://epromo.ewizsaas.com/)

E Promotional Products focuses on bags, drinkware, and office supplies, utilizing React, HTML, CSS, and JavaScript to create a dynamic e-commerce platform. Key features include responsive design, interactive product pages, and a smooth shopping cart experience. The site will also allow user accounts and wishlists, enhancing customer engagement and satisfaction. This versatile tech stack ensures a compelling and functional online shopping experience.

EDUCATION

University of Mumbai / India, Mumbai
